IMPORTANT NOTE TO APPLICANTS

1. The Call for Applications of the Students at Risk Subprogramme is subject to change during the application period. We suggest that all applicants follow our website.
2. This Call for Application is for Ukrainian nationals only.
3. The Students at Risk Subprogramme is **ONLY for Ukraine citizens who cannot study in Ukraine because of the ongoing war but wish to start or continue their studies in a higher education institution in Hungary.**
4. The purpose of the Call for Applications is to help those Ukrainian citizens who wish to start their academic studies in Hungary in Academic Year 2022/23.

MAKING A FALSE STATEMENT RESULTS IN GETTING EXCLUDED FROM THE STIPENDIUM HUNGARICUM SCHOLARSHIP PROGRAMME FOR 10 YEARS!

1. The Students at Risk Subprogramme

1.1. Mission of the Subprogramme

The Students at Risk Subprogramme is an addition to the Stipendium Hungaricum Scholarship Programme, supervised by the Ministry of Foreign Affairs and Trade and managed by the Tempus Public Foundation. Its goal is to provide assistance to students and doctoral candidates whose studies or research have been interrupted because of war, catastrophe, prosecution etc.

1.2. Content of the Scholarship

The Students at Risk Subprogramme provides scholarships for studies in Hungarian higher education institutions.

The present Call for Applications is for Ukrainian citizens who wish to undertake higher education studies in Hungary. The opportunity is open also for those who already pursued higher education studies before and those who only have a secondary school graduation certificate (and who will have obtained a secondary school graduation certificate by the time of the enrolment).

This Call for Applications is only for students with Ukrainian citizenship!

The Students at Risk Subprogramme supports full-time higher education studies leading to a degree. The host universities will enrol the scholarship holders as partial study students (first phase) at the start of their scholarship studies. At the end of the first phase, the host institutions will evaluate if the scholarship holders can be admitted to a full degree programme leading to a degree (second phase) and continue their studies. The approved students will be granted Stipendium Hungaricum scholarship status during both phases.

The only exception when applicants can apply for a full degree programme is when the study programmes start in the Spring Semester (“keresztfélév”), instead of Autumn. In this case, scholarship holders can start their full degree studies without a partial study phase. The official starting date of the Spring Semester programmes is February 2023.

Please note that the application deadline for full degree programmes starting in the Spring Semester will be different than the other available study programmes. Please check [Section 5.3.](#) for further details.

PARTIAL STUDY PHASE

During the partial study phase, students can be either specialisation course (“részszerű képzés”) students or guest students (“vendéghallgató”) based on the decision of the host institution. The scholarship holders take study courses during this period – preferably earning credits related to their original study programmes in Ukraine. The host universities assist the scholarship holders with orientation programmes and support their integration with, e.g., student counselling, Hungarian language and culture courses, and English language preparatory courses.

FULL DEGREE STUDY PHASE

The Hungarian higher education institutions assess and evaluate the professional background and the qualification of the scholarship holders during the partial study phase and conduct the necessary recognition procedures regarding previous studies and credits (if the applicant previously pursued studies in higher education relevant to the study programme applied for). Based on the recognised credits, the higher education institutions decide in which class/year the students could continue or start their studies. Ideally, this would be the same year in which the previous studies in Ukraine were suspended (only in case the applicant already had a student status in Ukraine). Following this, selected students can continue their scholarship holder status; they enrol in a full-time study programme leading to a degree (full degree studies instead of the previous partial studies). The student status in the full degree programme starts after the host university's decision. This continuous decision-making process lasts until May 2023, the end of the partial study phase.

1.2.1. Available Starting Dates

There are two different starting dates when the students can enter the Students at Risk Programme. They can apply to start either in the Autumn Semester or in the Spring Semester of Academic Year 2022/2023. In the application system, applicants have to select the month when they would like to start their studies.

2. Provisions Covered by the Students at Risk Subprogramme

- **Tuition-free education**
 - exemption from the payment of tuition fee
- **Monthly stipend**
 - **for Ukrainian citizens at non-degree (including preparatory courses), bachelor's, master's, one-tier master's level:** monthly amount of HUF 43,700 (currently ca EUR 110) contribution to the living expenses in Hungary, for 12 months a year, until the completion of studies*
 - **at doctoral level:** according to the prevailing Hungarian legislation, the monthly amount of the scholarship is HUF 140,000 (currently ca EUR 350) for the first phase of education (4 semesters) and HUF 180,000 (currently ca EUR 450) for the second phase (4 semesters) – for 12 months a year, until the completion of studies.* As a result, the amount of scholarship depends on which phase the Students at Risk scholarship holders enter the programme. Please see details in section 4.4.
- **Accommodation contribution**
 - free dormitory place or a contribution of HUF 40,000/month to accommodation costs for the whole duration of the scholarship period (Please note that if the student does not live in the dormitory, the HUF 40,000/month is a contribution to the rental costs, and in bigger cities – especially in the capital city – this contribution would not cover the full amount of rental costs.)
- **Medical insurance**
 - health care services according to the relevant Hungarian legislation (Act LXXX of 1997, national health insurance card) and supplementary medical insurance for up to HUF 65,000 (currently ca EUR 163) a year/person

* The monthly stipend and all other benefits are received until the end of the scholarship period, in accordance with the Operational Regulations and the Implementation Guide of the Programme. Conditions (such as an active student status) are detailed in the Operational Regulations and the Implementation Guide of the Programme.

Please bear in mind that these provisions are **only a contribution** to the living expenses of the scholarship holders. It means that they **do not fully cover all the costs of living**, and the students need to add their own financial resources in order to cover all living expenses in Hungary. All applicants are highly advised to check the expected living expenses both in Hungary and in the city that they wish to live in before applying; please do check our *Cost of Living Calculator* by clicking here: <http://www.studyinhungary.hu/living-in-hungary/menu/your-costs-of-living.html>

3. Eligibility

3.1. Eligible Applicants

Within this Call for Applications, the scholarship is available for those **who meet all of the following criteria**:

- who are **citizens of Ukraine** (including dual citizenship, except for those who have Hungarian citizenship! Ukrainian-Hungarian dual citizens cannot apply!)
- those Ukrainian students who can certify that completed at least 11 years in public education.

3.2. Non-eligibility

Applications will not be considered in the following cases:

- **Hungarian citizens, including those with dual citizenships**
 - Please note that this requirement is not only for applicants but for scholarship holders as well; it means that, e.g., the scholarship status automatically ends if the Scholarship Holder obtains Hungarian citizenship during the studies in Hungary.
- Ukrainian secondary school students who will not have obtained their secondary school graduation certificate until the enrolment
- Those **former Stipendium Hungaricum scholarship holders** who were awarded a scholarship for **full degree** studies and who are now re-applying for full degree studies in the **same cycle** of education (bachelor, master, one-tier master level).
 - Therefore, those Stipendium Hungaricum scholarship holders can apply for the programme who apply for different study levels, e.g., bachelor-level scholarship holders can apply for master or one-tier master studies.
 - Please note that it is only possible to re-apply for full degree scholarship studies in the same cycle of education if the former Stipendium Hungaricum Scholarship Holder was previously awarded partial (exchange) studies. Even in this case, the length of the full

degree scholarship shall be reduced by the length of the previous partial (exchange) studies.

4. Available Study Fields, Study Programmes and Host Institutions

4.1. Study Fields and Study Programmes

Applicants with Ukrainian citizenship can choose **any study field** offered in the Stipendium Hungaricum Scholarship Programme.

Within this Call for Applications, the approved Students at Risk scholarship holders can start their studies from Autumn 2022 or Spring 2023 on **any available study programmes that are offered in the Stipendium Hungaricum Scholarship Programme** (the Students at Risk Subprogramme is a subprogramme of the Stipendium Hungaricum Scholarship Programme) in the online application system. The applicants can apply for any of these study programmes, regardless of the territorial restrictions that exist in the Stipendium Hungaricum Scholarship Programme.

The list and description of the available study programmes can be browsed in the application system: <https://apply.stipendiumhungaricum.hu/courses/search/>.

Following this link, the applicants can check the general entry requirements too; however, the professional requirements can be expected to be different for Students at Risk participants who start their Hungarian studies in a grade higher than the first year. For the details regarding the entry requirements and admission procedure, applicants can obtain further information under the course description of the selected programme in the online application system.

Applicants who wish to start their studies in the Autumn Semester of Academic Year 2022/23 can only apply for partial studies, Hungarian language and culture courses, and English language preparatory courses.

Full study programmes are only available for the Spring Semester of Academic Year 2022/2023.

4.2. Hungarian Higher Education Institutions

Students at Risk scholarship holders can start their studies from Autumn 2022 at **any host institution that is involved in the Stipendium Hungaricum Scholarship Programme** (the Students at Risk Subprogramme is a subprogramme of the Stipendium Hungaricum Scholarship Programme) and offers study programmes in the given application period.

The list and description of the available host institutions and study programmes can be browsed in the application system: <https://apply.stipendiumhungaricum.hu/courses/search/>.

4.3. Language of Education

4.3.1. Studies in Foreign Languages

Students at Risk applicants can apply for studies **in the English language and other foreign languages**. The majority of study programmes are offered in the English language but some of them are, e.g., in the French or German language. The language of education for each study programme can also be checked in the application system.

The scholarship holders have to have a level of proficiency in the language of education as required by the Host Institution. Please visit the online application system (<https://apply.stipendiumhungaricum.hu/>) to see the exact language criteria for each study programme.

Applicants can also apply for English language preparatory courses.

4.3.2. Hungarian Language Programme

Besides foreign languages, Ukrainian applicants can also apply for a **Hungarian language programme**. This language programme is for students who wish to learn the Hungarian language and – after completion – continue their original full degree higher education studies or start their full-degree higher education studies in a Hungarian-language study programme.

In general, applicants of these programmes are not required to have any previous knowledge of the Hungarian language; however, they are usually required to have at least a basic level of English proficiency.

Most Hungarian language programmes start in September; therefore, applicants are advised to apply as early as possible.

Regardless of the starting date of Student at Risk scholarship studies, the Hungarian language programme lasts until the end of Academic Year 2022/2023. After the completion of the language programme, students who meet the requirements (such as language requirements) can continue their study programmes within the Students at Risk Subprogramme leading to a degree, conducted in the Hungarian language.

In the online application system, the applicants of the Hungarian language programmes need to apply directly for these courses (and NOT for the degree programme they wish to start after the language programme).

For the sake of simplicity and because the Hungarian language programme participants are also expected to finish their scholarship studies with a degree, the text of this Calls for Application handles the Hungarian language programme participants as full degree applicants/students.

4.4. Study Levels

The Students at Risk scholarships are available for partial studies, Hungarian language and culture courses, English language preparatory courses and full degree programmes. (Full degree programmes are available only for the Spring Semester of the Academic Year of 2022/2023).

Study programmes	Whole duration <u>of the study programme</u>	Qualifications at the end of the study programme
Bachelor programmes	2-4 years	BA or BSc degree
Master programmes	1.5-2 years	MA or MSc degree
One-tier master programmes	5-6 years	MA or MSc degree
Doctoral programmes	2+2 years	Doctoral degree
Non-degree Preparatory Course in Hungarian language	1 year	certificate
English language preparatory courses	1-2 semesters	certificate
Partial studies	1-2 semesters	certificate

Note about one-tier master's programmes:

In the Hungarian education system, one-tier master's programmes cover both the bachelor and the master level of studies; therefore, it is an undivided study programme that results in a master's degree. These one-tier programmes are offered in specific study fields such as general medicine, pharmacy, dentistry, architecture, law, veterinary surgery, forestry engineering, etc.

Note about doctoral programmes:

In Hungary, the duration of doctoral programmes is 8 semesters. Doctoral programmes are divided into two different phases: the first phase (4 semesters) is for professional training and research, while the second phase (4 semesters) is for research and dissertation. At the end of the first 4 semesters, doctoral students are obliged to take a complex exam, where the educational and research progress of the student is evaluated. Doctoral students can only continue with the second phase of their studies upon the successful completion of the complex exam. The amount of the monthly stipend is different in the two phases of doctoral programmes. Please see section 2. about financial details.

English language preparatory courses are available within this Call for Applications. The maximum length of preparatory courses is 2 semesters.

The duration of partial studies can be 1 or 2 semesters. Before the end of Academic Year 2022/23, the universities will decide if the scholarship holders can continue their studies in a full degree programme.

5. The Application Process

5.1. Application Procedure

For details, see the Flow Chart of the application process in section 5.4.

5.2. Application Documents to be submitted to Tempus Public Foundation

5.2.1. Basic Application Documents and Replacement Documents

The following types of documents need to be uploaded to the online application system. **Please note that only files with a maximum size of 4 MB can be uploaded.**

There could be documents (e.g., school certificates, transcripts) that are missing. For this reason, the applicants are asked to upload as many documents as possible that could provide credible evidence about previous studies and grades (see details below).

For those who want to have previous studies recognised later: The universities are going to conduct the recognition process throughout the Spring semester of 2023. The host universities selected on the application form have continuous and direct access to the online application system so that they can check documents at any time. If – after submitting the application package until the deadline – **the applicant manages to find further documents that could confirm their academic history, records, or language proficiency, it is important to forward these documents to the host university.** The application surface is planned to stay open so that new documents can be uploaded (however data previously uploaded cannot be changed), therefore any new documents should be uploaded in the application system (unless the university has a different protocol).

Application Documents	Details	If you are unable to upload this type of document
Online application form	The applicants must fill out and save all requested information on the online application form in English or Hungarian, including the attachment of a recent photo (not older than 2 years).	Not relevant. All applicants need to fill out the online application form.

Application Documents	Details	If you are unable to upload this type of document
Letter about future study plans in Hungary	Minimum 1-page-long letter written in English, Hungarian or the language of the selected study programme about future study plans and how they are relevant to previous studies. If you are a doctoral-level student, this letter should include your research plans. The letter should be inserted to the section of the online application system called "Motivation".	Not relevant. All applicants need to include this in the online application system.
School certificates	Ideally, this would be the copy of a secondary school graduation certificate or equivalent for bachelor level studies, a bachelor's degree certificate or equivalent for master level studies and a master's degree certificate or equivalent for doctoral-level studies. However, if missing, any other documents should be uploaded that provide credible evidence. For Ukrainian secondary school student showing proof that they completed at least 11 years in public education and obtained or will obtain their secondary school graduation certificate (a document certifying the completion of high school studies) until the enrolment. For those who wish to continue their studies on a higher study level (e.g., finished their bachelor studies and would like to continue their studies on master level), showing proof that they obtained degree on bachelor's or master's level is the date of the enrolment at the latest.	Not relevant. Information about previous studies and qualifications is requested on the online application form. All applicants need to sign the "Statement for Application" accepting that all information submitted is accurate and true, therefore this will count as a statement about qualifications.
Transcript of Records	Ideally, this would be the transcript of records regarding all academic semesters or school years completed during previous studies. If missing or partly missing, any other documents should be uploaded that provide credible evidence.	If missing, applicants should make a list of previous academic records with as many details as possible. This document should be submitted to the online application system.
Copy of Passport	If the applicant has a passport, upload the scanned copy of the page which contains both the personal data and the photograph of the applicant.	If the applicant does not have/lost the passport, upload any official document(s) received by the official authorities (such as the National Directorate-General for Aliens Policing in Hungary or the Hungarian border police). If the applicant has a valid national ID card, a copy should be uploaded too.

Application Documents	Details	If you are unable to upload this type of document
Proof of language proficiency	Documents that provide credible evidence that the applicant's level of language proficiency meets the minimum level determined by the Host Institution. Ideally, this would be a copy of a language exam. A language exam is not needed if the applicants completed any previous studies in the same language as the language of the chosen Hungarian study programme (for example, if the official language of the high school was English because it is an official language in the home country of the student). See section 4.3. for general language requirements.	If missing, the host institutions will assess the level of language proficiency of the applicants. If the language of the chosen study programme in Hungary is the same as the language of the study programme started (but not finished) in Ukraine, if possible, please also upload any document(s) that provide credible evidence of this.
Statement for Application	All applicants need to accept and sign the "Statement for Application". The statement should be made on the form provided: download Annex 2 which contains the form that should be used.	Not relevant. All applicants need to submit the signed statement.

Please note that, in accordance with the General Data Protection Regulation (GDPR) in European Union law, the applicants need to give their consent regarding data protection and accept our Privacy Policy in order to be able to submit the application. This consent appears in the system after registration as well as the Privacy Policy – that is also [Annex 3](#).

5.2.2. Optional documents

Application Documents	Details
Letter of Acceptance or Certificate of Student Status issued by a Hungarian higher education institution	If the applicant has already contacted a Hungarian Host Institution and received a Letter of Acceptance, please upload this document. If the student has already enrolled at a Hungarian higher education institution after fleeing the war and has a Certificate of Student Status, please upload this document.
Translation of all/any application documents that are not in English, Hungarian or in the language of the selected Hungarian study programme	This is not a requirement, however, if the applicant has any translations about the application document(s) that are in a language different from English, Hungarian or the language of the selected Hungarian study programme, please also upload these to the online system.

5.2.3. Documents that are currently missing but could be collected later

It is possible that the applicants are unable to get a copy at the time of the application. In case of study-related documents reviewed by the host institutions (school certificates, transcript of records, proof

of language proficiency) these documents might be presented at a later time **depending on the Host Institution's protocols and decision.**

If this is the case, it should be clearly indicated on the application form. Also, all application documents or their replacement documents listed in section 5.2.1. should still be uploaded in the system.

5.3. Submitting the Application

All applications shall be submitted through the online application system of Tempus Public Foundation. After registration, the applicants are able to access the application system and upload the application documents. No hard copies are required. Please make sure that the application is actually submitted, not only saved.

The application deadline for full degree programmes starting in the Spring Semester 2022/23 is 15 November 2022.

For all other programmes submitted applications are accepted until 9 January 2023 (CET 23:59).

The online application system can be accessed here:

apply.stipendiumhungaricum.hu

The application and the evaluation of the applications are continuous. This means that places are filled on a first come, first served basis! We strongly suggest submitting the application as soon as possible!

The available study programmes and Host Institutions are accessible in the online application system (<https://apply.stipendiumhungaricum.hu/>). Please note that you can only apply for these study programmes within the frameworks of the Stipendium Hungaricum Scholarship Programme.

In addition to the first choice of study programme, there is an opportunity to apply for an additional, **second study programme**. Therefore, each applicant can apply for **up to TWO different study programmes, in order of preference**. The second study programme can be only a Hungarian language and culture course, and English language preparatory course. Other study programmes selected as a second choice will not be considered.

By submitting the application, the applicant declares that all information provided in the online application system of Tempus Public Foundation – including the content of all uploaded documents – are true and correct to the best of their knowledge and belief. MAKING A FALSE STATEMENT RESULTS IN GETTING EXCLUDED FROM THE STIPENDIUM HUNGARICUM SCHOLARSHIP PROGRAMME FOR 10 YEARS!

It is strongly recommended to register with a valid and properly working e-mail address which is regularly monitored by the applicant. In case there is a change in the address – including during the study period in Hungary – the Host Institution and Tempus Public Foundation should be immediately informed and be provided with the new e-mail address by the applicant/Scholarship Holder. If possible, please avoid using a Hotmail or a Yahoo account because in that case, letters from Tempus Public Foundation usually go to the Spam folder.

5.4. Flow Chart of Application Process

5.5. Selection Procedure

5.5.1. First phase: technical check

The applications successfully submitted in Tempus Public Foundation's online application system are checked first. This is called a technical check and is done by Tempus Public Foundation. The technical check is conducted at the same time for all applicants.

Tempus Public Foundation only checks the eligibility of the applicants for the scholarship:

- citizenship, age, and possible former Stipendium Hungaricum Scholarship status (if any) - further details are in section 3,
- if the Statement for Application is signed and uploaded.

Applicants will be automatically rejected during the technical check if they do not meet the basic eligibility criteria, including those who provided any false information during the application process. Making a false statement results in getting excluded from the Stipendium Hungaricum scholarship programme for 10 years!

The technical check is a continuous process throughout and after the application period. The applications that passed the technical check are continuously forwarded to the selected Host Institution. Only applicants having passed the technical check can be considered by the host institutions.

5.5.2. Second phase: entrance examination

The host institutions run a formal check and examine the content of the uploaded files if all the documents submitted by the applicants meet the requirements of the Call for Applications and the minimum entry requirements of the selected study programme(s).

Applicants must take part of the institutional entrance examination.

The exact date and method of the entrance examination vary by institutions. Each applicant will be individually informed about further details (e.g., date of examination) directly by their selected Host Institution(s).

For more details about the specific requirements of the selected study programme, please check the course description in the application system.

Please note that getting approved by the Host Institution does not mean that the applicant is approved for the scholarship.

5.5.3. Third phase: decision

Tempus Public Foundation makes a final decision about the applicants.

- In the case of students with a **start date in Autumn 2022**, the decision is made throughout Autumn. Decision-making is continuous in the application period. Those who accept the scholarship offer in the online system enrol at the host university right after the decision is made and receive a scholarship status.

- In the case of students with a **start date only in Spring 2023**, the approved students need to accept their scholarship offer in the online system as soon as possible in order to get enrolled at the host institution until the end of February 2023 at the latest.

6. Studying in Hungary

We highly recommend that all applicants visit our Study in Hungary website (www.studyinhungary.hu) for detailed information about life and education in Hungary.

Please note that the Students at Risk Subprogramme does not fully cover all incurring costs of the Scholarship Holder. It means that the students need to add their own financial resources in order to cover all living expenses in Hungary. All applicants are highly advised to check the expected living expenses both in Hungary and in the city that they wish to live in before applying; please do check our Cost of Living Calculator by clicking here: <http://www.studyinhungary.hu/living-in-hungary/menu/your-costs-of-living.html>

The following two sections provide information primarily for those who are not in Hungary.

6.1. Arrival and enrolment for those who start in autumn 2022

Any possible changes in the entry and enrolment system due to the COVID-19 pandemic situation will be posted on our website: <https://stipendiumhungaricum.hu/>.

Scholarship holders are required to inform the Students at Risk/Stipendium Hungaricum coordinator of their Host Institution (please see contact details on our website) about their expected date of arrival 30 – but not less than 15 – days before arrival.

Successful applicants are expected to make their own travel arrangements to Hungary – no financial provisions will be provided for travel expenses by the Hungarian side. In accordance with current legislation, scholarship holders are entitled to be exempt from the payment of any fees related to their admission to Hungary. No visa, administrative services or additional contribution is given to family members or accompanying persons.

Scholarship holders are expected to arrive in Hungary and **register at the Host Institution** until the date set by the host institutions. The applicant who is granted the scholarship must enrol at the Host Institution in the semester in which she/he was granted admission.

In principle, it is **not possible to postpone the start of the scholarship studies** to another semester or academic year – except for very special, unforeseeable, force majeure cases described in the Operational Regulations, with the special approval of Tempus Public Foundation. Therefore, in principle, if the Scholarship Holder does not enrol until the date set by the host institutions, she/he will be automatically excluded from the scholarship programme.

Please note that scholarship holders will undergo medical examinations, organised by universities upon the students' arrival (it is free of charge for scholarship holders).

6.2. Rights and Obligations

6.2.1. Operational Regulations, GDPR and Student Contract

All scholarship holders are bound by the Operational Regulations of the Stipendium Hungaricum Programme. Please make sure to read it carefully in [Annex 1](#). The following text contains summarised extracts from the Operational Regulations; however, all scholarship holders must read the full text of the regulations.

Scholarship holders are required to sign a scholarship contract with the Host Institution including study-related details and the rights and obligations of the scholarship holders (see a general sample for Stipendium Hungaricum students [on our website](#) or at the end of the Operational Regulations).

The scholarship is a contribution to the living costs of the Scholarship Holder only; therefore – within the framework of the programme – visa-related assistance, additional allowance and administrative services are not provided for any accompanying people or family members. The scholarship contract is exclusively between the Scholarship Holder and the Host Institution.

The scholarship holders are expected to follow the regulations of the Host Institution and continue their studies in good faith, to the best of their abilities, in order to meet the academic requirements of the study programme, and thus finish the programme successfully. By accepting the scholarship, the scholarship holders agree to participate in the alumni system of the programme that supports the maintenance of relationships with other scholarship holders and facilitates the flow of information – such as the alumni website, alumni events and surveys about the satisfaction of students, career monitoring, and the evaluation of research activities.

Please note that the Operational Regulations of the Programme is subject to change, and the scholarship holders are bound by the prevailing regulations at any given time.

Please note that, in accordance with the General Data Protection Regulation (GDPR) in European Union law, all applicants need to give consent regarding data protection and accept the Privacy Policy ([see Annex 3](#)) in order to be able to submit an application. These consents appear in the online application system after registration.

6.2.2. Staying in Hungary

Scholarship holders are obliged to live and study in Hungary; therefore, they are not allowed to live habitually in any other country during the study period, otherwise their Scholarship Holder status will be terminated.

6.2.3. Other Scholarships and Double Financing

As the Students at Risk scholarship covers the entire period of the studies, the scholarship holders are not entitled to use financial support for getting enrolled in full time or partial (exchange) study programmes outside Hungary (e.g., Erasmus +, CEEPUS, Campus Mundi). They can only participate in conferences or research activities that are professionally relevant for their studies. These activities should not exceed 14 days or in any way prevent the student from habitually living in Hungary.

Applicants are also not eligible to receive the Students at Risk scholarship in case they have another concurrent scholarship from the Hungarian central budget for studies in Hungary. If the Scholarship Holder was awarded more than one scholarship, she/he has to choose one of the scholarships and withdraw from the others. However, the host institutions are allowed to provide additional financial support for the students on a social, performance-related, or other basis.

In accordance with the regulations of Government Decree 51/2007. (III. 26.), scholarship holders are entitled to be awarded with the National Higher Education Scholarship ("nemzeti felsőoktatási ösztöndíj").

6.2.4. Termination of Scholarship Status

In accordance with the Operational Regulations of the programme, the scholarship status is terminated if

- the Scholarship Holder withdraws from the scholarship in writing (sent to both Tempus Public Foundation and the Host Institution),
- after accepting his/her scholarship, the Scholarship Holder does not travel to Hungary and does not start his/her studies (if he/she does not notify Tempus Public Foundation of this fact, he/she cannot apply for the Stipendium Hungaricum Programme in the next 3 years)
- the Scholarship Holder had obtained a degree at the study programme supported by the scholarship,
- the Scholarship Holder has used up all the awarded scholarship semesters and had not submitted an extension request; or in case the student is not entitled for extension,
- the Scholarship Holder does not comply with the regulations of the programme regarding the obligation of living habitually in Hungary,
- the Scholarship Holder receives Hungarian citizenship (including those with dual citizenships)
- as a result of institutional disciplinary or criminal proceedings against the Scholarship Holder, the Scholarship Holder is expelled, and for this reason Tempus Public Foundation asks the Host Institution to terminate the scholarship status,
- in other cases described in the Operational Regulations of the programme in effect.

7. Contact Details

Please visit our www.stipendiumhungaricum.hu and www.studyinhungary.hu websites for more details. Please contact the Study in Hungary Department of Tempus Public Foundation in one of the following ways in case you need any further information.

Please note that it is the responsible authorities that applicants should contact regarding questions about the residence permits and visa as well as questions about the temporary protection or refugee status.
